MAISON®
WALL

EasyClean+ Surface
Low-maintenance by design — just wipe and go. Helps reduce visible stains and keeps the surface looking fresh, not dull.

Eco Friendly & Non Toxic Materials
Designed for healthier living spaces with bamboo charcoal-based material, combining durability, versatility, and a more sustainable approach.

Premium Look & Feel
Seamless appearance with precise joining, a refined surface finish, and balanced stability for a more elevated interior look.

Natural Antibacterial Protection
The natural properties of bamboo charcoal help inhibit bacterial growth, supporting a cleaner and more hygienic indoor environment.

WaterShield Protection
A water-resistant protective layer that helps maintain color durability while making everyday cleaning easier.

Bamboo Charcoal Core
Bamboo charcoal-infused core engineered for enhanced stability, moisture resistance, and long-lasting performance.

TermiGuard Core
A polymer-based core designed to be more resistant to termite attacks for long-term peace of mind.

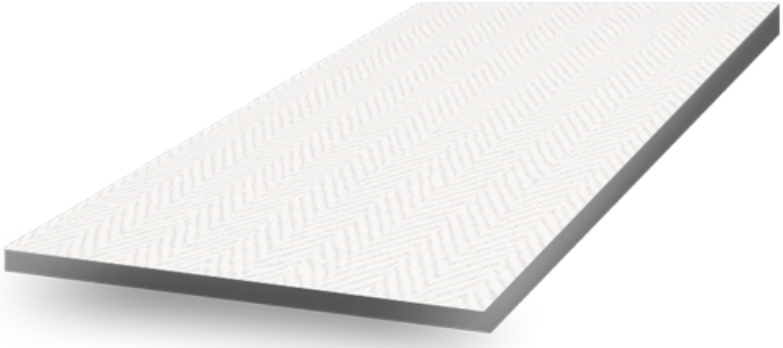

Odor Absorption
Bamboo charcoal naturally helps absorb unpleasant odors, keeping indoor spaces feeling fresher and more comfortable.

Maison Wall Series — Where Surfaces Become Harmony.

“Maison” means home in French — a place where every side evokes warmth, comfort, and timeless elegance.
Inspired by this very essence, Maison Wall Series is created to elevate walls into refined architectural elements—where texture, depth, and material harmony shape the identity of a space.
Designed to transform vertical surfaces into visual statements, Maison Wall Series brings balance between aesthetics and performance. Each surface is crafted to enrich spatial character, adding dimension, rhythm, and a subtle sense of luxury that complements both modern and timeless interiors.
Engineered for long-term reliability, Maison Wall Series is developed to withstand humidity, deformation, and the demands of everyday use, making it suitable for both residential and commercial environments. Beyond function, every wall solution is thoughtfully composed to enhance ambience—framing spaces with calm sophistication and architectural clarity.

Maison — because a beautiful home is shaped not only by the floor beneath you, but by the walls that surround you.
